

ALEXANDRIA'S

beauty salon

"I enlisted the help of Alex (hair) and Rachel (makeup) for my April 2015 wedding and would highly recommend Alexandrias Beauty Salon! They both did a wonderful job for not only myself but my mother, matron of honor and 3 bridesmaids. They also arrived on site (The Century House) and prepped everyone within our timeframe. From everything to the hair/makeup trials to mani/pedi to the actual event, I felt completely cared for and at ease knowing that I was in good hands and would look beautiful. I also had Alex help with my mother's hair (love her but style is stuck in the 80s) and one bridesmaid (who has unruly red course hair) and both ladies were gorgeous. They were receptive to feedback and really listened to me and my ladies. By spending time with Alex and Rachel, I also got to be more familiar with the rest of Alexandria's crew who were all very nice and friendly. This salon offers everything that any bride would need and more!"

"I have so many great things to say about Alexandria's Beauty Salon! First -- it is one of the best salons in the Latham/Albany area! Second -- Alex and her staff are so sweet, kind, professional, and most of all... TALENTED! Alex also traveled to do my hair and my bridal party's hair for my wedding and everything was just so perfect -- she did an amazing job! And third, the salon is absolutely beautiful and you will have such a wonderful experience here!"

Testimonials From Our Brides!

"Alexandria's Beauty Salon was recommended to me by my now sister-in-law and I couldn't have been more satisfied with the results! Because I have naturally curly hair and so many pictures/inspiration relate to giving women curls who don't already have them, I really didn't know what I wanted. During my trial for both hair and makeup the ladies were so patient and listened to my ideas, but were able to use their skills to really make the hair and makeup all come together. They even styled my hair naturally curly first and then did it again after straightening so that I could decide exactly what I wanted; it was so refreshing that they really took the time to work with me and weren't just rushing me to make a decision.

We went to the salon the day-of and they had some light breakfast and mimosas for my bridal party. All of my girls (and the mothers) got their hair done and they LOVED it! (One of my girls liked it so much she did the same style for another wedding after.) The makeup was also flawless and the timing for everything went very smoothly. I highly recommend Alexandria's for your special day!"
